

SmartCare is a cloud-based technology that connects Parents to Center Directors and Teachers in real-time, throughout the day through your own mobile device(s) and via web portal.

Our network of centers is bringing true connection and communication directly to you. SmartCare will serve as our centers' management software and we want to make sure that you understand all of the great features this means for you moving forward.

Here are some incredible features we are excited to share with you:

- **Sign-In / Sign-Out Kiosk.** This will allow you to use your mobile device to seamlessly scan your child(ren) in or out with a unique QR Code. You could also use a Key Tag QR to scan or set up a numerical passcode. *You'll also be able to send a QR Code via text to an authorized pick up person.
- **Real-Time Parent - Teacher Communication.** You will receive updates on your child throughout the day, via the Parent App "push notifications" or connect to the Parent Web Portal to receive photos, videos, milestones, meals, daily reports, and more!
- **Mobile Features.** Check Communication Notifications, View Billing Account Information, Pay Your Tuition/Balances – all on the Parent App!
- **Manage Billing/Tuition.** View and Pay by Debit Card, Credit Card, or Checking Account on the Parent App or via the Parent Web Portal. *Because SmartCare is cloud-based, when payments are processed, the Center will update in real-time.
